

DUCT-IN

DUCT-IN INSULATED FLEXIBLE DUCT

Insulated Flex Data

Inner	Multi-layer aluminium and polyester wrapped fibreglass
Outer	Multi-layer aluminium and polyester laminate outerwall
Diameter Range (mm)	100 - 500
Insulation 16kg/m ³	Fibreglass 25mm
Standard Length	10 metres
Compression Ratio	1:10
Fire Rated	Class A2
Max Air Velocity	30m/sec
Operating Pressure	2500pa
Temperature Range °C	-30/+140

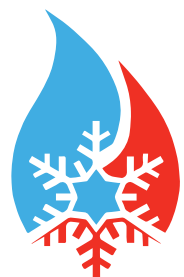

Prevents condensation from forming by reducing heat gain and loss through the duct

Perfect for air conditioning and ventilation systems

Ideal solution to connect onto plenums and air valves
